

GPT-2 reimplementation

created by:

- Joanna Jędrzejewska
- Sergio Carcamo
- Maciej Kasztelanic

Subject:

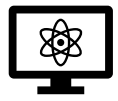

*Language Models are
Unsupervised Multitask Learners*
(A. Radford et. Al. 2019)

R reimplementation

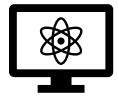

Cloud training

Testing on 3 datasets

Why did we choose this subject:

**Learning about
transformers
architecture**

**Understanding
attention mechanism**

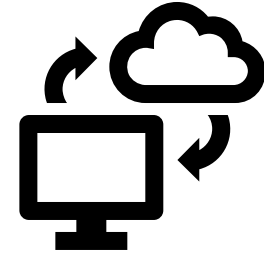

**Understanding what
really LLMs are**

**Create something
worth putting on a CV**

What tools will we use?

- **R6**
- **reticulate**

- **torch**
- **numpy**
- **tiktoken**

- **cloud
compute**

How do we split the work?

Model Implementation

Model Config, Attention, Data Loaders

Asia, Sergio, Maciej

Model Training

Training Script, Cloud Compute

Asia, Maciej

Testing and Validation

Different Datasets tests

Asia, Sergio, Maciej

Coordination and Presentation

Maciej
